半自动真空塞孔机
Semi-automatic vacuum plug hole machine

产品用途 Usage

双面板油墨塞孔
Double sided board ink plug hole

高频板树脂塞孔
High frequency board resin plug hole

产品特点

●自带真空系统塞孔段,适用高粘度树脂塞孔,实现水平式选择性以及整板塞孔,**避免返工,降低报废率。**

●配套进口超高真空系统,真空度可达50Pa,**彻底解决丝印时气泡所产生的不良问题。**

●机械设置自锁功能,**保证塞孔的稳定性和平衡性,还有操作人员的安全性。**

●四柱式动力升降系统,机械强度高,刚性度好,**设备稳定性强,有效延长使用年限。**

Features

●Equipped with a vacuum system plug hole section, suitable for high viscosity resin plug holes, achieving horizontal selectivity and whole plate plug holes, avoiding rework and reducing scrap rate.

●Equipped with an imported ultra-high vacuum system, the vacuum degree can reach 50Pa, completely solving the problem of bubbles generated during screen printing.

●The mechanical setting has a self-locking function to ensure the stability and balance of the plug hole, as well as the safety of the operator.

●Robot loading and unloading, online operation of the entire line, achieving fully intelligent and automated production, saving at least 5-7of labor costs.

●The four column power lifting system has high mechanical strength, good rigidity, strong equipment stability, and effectively extends its service life.

技术参数 Technical Paremete	
最大印刷面积 Max.Printing Area (Y*X)	730mm*630mm
最小印刷面积 Max.Printing Area (Y*X)	400mm*350mm
最大塞孔网板尺寸 Max.Frame Size (Y*X)	1200*1200mm
最小塞孔网板尺寸 Min.Frame Size (Y*X)	900mm*900mm
印刷厚度 Printing ThicKness	0.4mm-8.0mm
机械性产能 Mechanical Speed	2-3.5PNL/min R≤8:1
CCD对位精度 CCD Alignment Accuracy	±0.005mm
真空度 Vacuum degree	50Pa
使用工作气压 Operating Air Pressure	0.3-0.7Mpa
设备功率 Power	380V 50Hz 15KW
外观尺寸 Machine Dimension (L*W*H)	3450*3200*2100mm
工作台面积 Work Table Size (Y*X)	1000*1050mm
